## SUMMARY

---

**Frontend Engineer** with hands-on experience building responsive web applications using **HTML, CSS, JavaScript, React Js, Framer Motion and Daisy UI**. I enjoy crafting clean user interfaces and dynamic features that enhance user experience.

Alongside frontend development, I have a strong foundation in **Data Structures and Algorithms**, including **Array, String, Linked List, Heap, Hashmap, Stack, and Queue**, which sharpen my problem-solving skills and help me write efficient, scalable code.

[Leetcode Profile.](#)

[GFG Profile.](#)

## PROJECTS

---

### Rasoi —Github —Live

[Rasoi.](#)

A responsive food ordering web app built with HTML, CSS, and JavaScript, featuring dynamic cart and clean UI.

### Random Joke App—Github—Live

[Laughline](#)

A user-friendly random joke generator built with HTML, CSS, JavaScript with API integration featuring dynamic jokes.

### SpendWise —Github —Live

[SpendWise](#)

Spendiwise — a smart web app built with HTML, CSS, and JavaScript, powered by Firebase Authentication and Firestore for secure user login and real-time expense tracking.

### Personal Portfolio —Github —Live

[Portfolio](#)

I've developed Personal Portfolio built with HTML, CSS, JavaScript, React Js and Framer motion for smooth animation to showcase my skills, projects, and technical journey. It features smooth navigation, structured sections for project highlights, and a clean UI that reflects my frontend development capabilities.
